

## **Biofrontera's Ameluz® and BF-RhodoLED® Listed on the U.S. VA Federal Supply Schedule**

**Leverkusen, Germany, October 09, 2017** – Biofrontera AG (ISIN: DE0006046113), the specialist for the treatment of sun-induced skin cancer, today announced that the Company's combination of the topical prescription drug Ameluz® and the medical device BF-RhodoLED® for the photodynamic therapy (PDT) treatment of skin cancer precursors has been listed on the U.S. Veterans Affairs Federal Supply Schedule (VA FSS).

With over \$10 billion in sales, the VA FSS Service supports the healthcare requirements of the VA and other federal government agencies by providing Federal customers with access to over 1 million state-of-the-art commercial products and services. The listing, which went into effect on October 2, will include the combination treatment on the FSS catalogue and make it available for purchase by Veterans Affairs and Department of Defense facilities.

"We are pleased that the VA FSS has begun to list Ameluz® and our combination BF-RhodoLED® lamp as a treatment option for skin cancer precursors. This listing represents another significant milestone for our company in the U.S. market," said Prof. Dr. Hermann Lübbert, CEO of Biofrontera. "The VA FSS expands our opportunity to reach new patients and demonstrates the demand for efficacious treatment. It further validates our technology as an effective treatment for skin cancer precursors, as well as provides more patients with the opportunity to receive treatment."

Interested facilities should follow normal ordering procedures and can reach out directly to the following:

**About Biofrontera:**

Biofrontera AG is a biopharmaceutical company specializing in the development, sale and distribution of dermatological drugs and medical cosmetics.

The Leverkusen, Germany-based company, which has approximately 130 employees worldwide, develops and distributes innovative products for the care, protection and treatment of the skin. Biofrontera's combination lead product is topical prescription drug Ameluz® and medical device BF-RhodoLED® for the photodynamic therapy (PDT) treatment of superficial skin cancer and its precursors. Ameluz® has been marketed in the EU since 2012 and in the U.S. since 2016. The Company also markets the Belixos® dermocosmetics series in the EU, which offers specialized care for damaged or diseased skin.

Biofrontera is the first German, founder-led pharmaceutical company to obtain both EU and U.S. approval for a medical drug it has developed itself. The Biofrontera Group was established in 1997 by current CEO, Prof. Dr. Hermann Lübbert, and is listed on the Frankfurt Stock Exchange (Prime Standard).
